Project is located: in WRIGHT in SCHOHARIE COUNTY

Project Description:
The Department has proposed a new Title V Facility permit for the Wright Compressor Station facility located on 330 Westfall Rd., Town of Wright, Schoharie County. The facility is proposing to install two additional combustion turbines to drive natural gas pipeline compressors. The modification will include two Solar Taurus 70 natural gas-fired turbines of about 11,000 horsepower (hP) each, along with an emergency generator reciprocating engine with a maximum rating of 940 kW. The facility currently consists of two natural gas combustion turbines of about 7,000 hP and one emergency generator reciprocating engine. Conditions were included in the permit to limit the emissions of nitrogen oxides to prevent the facility from contributing to a violation of the National Ambient Air Quality Standards (NAAQS).

In accordance with 6NYCRR Parts 621.7(b)(9) and 201-6.3(c), the Administrator of the United States Environmental Protection Agency (USEPA) has the authority to bar issuance of any Title V Facility Permit if it is determined not to be in compliance with applicable requirements of the Clean Air Act or 6NYCRR Part 201.
