Washington, DC 20004

Re: Partial Notice to Proceed with Construction

Dear Mr. Archuleta:

I grant Iroquois Gas Transmission System, L.P.'s (Iroquois) August 14, 2026 request, as supplemented on August 21 and 27 and September 4, 2026, to proceed with construction of natural gas compression and gas cooling facilities at three existing compressor stations on Iroquois' system as part of the Enhancement by Compression Project. This approval is for facilities at the Athens, Dover, and Milford Compressor Stations in Greene and Dutchess Counties, New York, and New Haven County, Connecticut. In considering this notice to proceed, we reviewed Iroquois' Implementation Plan filed on August 14, 2026. The Implementation Plan provided the information necessary to meet the applicable conditions of the Commission's March 25, 2022 *Order Issuing Certificate* (Order) in the above-referenced docket. I have confirmed the receipt of all federal authorizations relevant to the activities approved herein.

I remind you that Iroquois must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please call Dawn Ramsey, Environmental Project Manager, at (202) 502-6856.

Sincerely,

**WALLACE
LAFFOON**
